Report of Independent Auditor

To The Board of Directors and Shareholders of

Thai Tap Water Supply Company Limited

I have audited the balance sheets of Thai Tap Water Supply Company Limited as at 31 December 2005 and

2004, and the related statements of earnings and changes in shareholders' equity and cash flows for the years

then ended. These financial statements are the responsibility of the Company's management as to their

correctness and the completeness of the presentation. My responsibility is to express an opinion on these

financial statements based on my audits.

I conducted my audits in accordance with generally accepted auditing standards. Those standards require that

I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of

material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and

disclosures in the financial statements. An audit also includes assessing the accounting principles used and

significant estimates made by management, as well as evaluating the overall financial statement presentation.

I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial

position of Thai Tap Water Supply Company Limited as at 31 December 2005 and 2004, and the results of its

operations and cash flows for the years then ended in accordance with generally accepted accounting

principles.

THAI TAP WATER SUPPLY COMPANY LIMITED NOTES TO FINANCIAL STATEMENTS 31 DECEMBER 2005 AND 2004

1. GENERAL INFORMATION

Thai Tap Water Supply Company Limited was incorporated as a limited company under Thai laws and operated in Thailand. The Company's parent company is CH. Karnchang Public Company Limited. The Company is engaged in the production and sell of treated water in Nakhon Pathom and Samut Sakhon in accordance with the rights granted under the "Water Purchase and Sales Agreement" made with the Provincial Waterworks Authority, dated 21 September 2000, for a period of 30 years as from the Actual Commencement Date.

On 25 September 2003, the Company and the Provincial Waterworks Authority entered into a "Water Purchase Agreement Prior to Commencement Date". Under the agreement, the pre-sales of water commenced from 5 January 2004 to 20 July 2004. The Company commenced the sales of treated water under Water Purchase Agreement on 21 July 2005.

The Company's registered office is located at 30/10 Moo 12, Rai Khing, Sam Phran, Nakhon Pathom.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with accounting standards enunciated under the Accounting Profession Act B.E.2547.

Significant accounting policies adopted by the Company are summarised below:

2.1 Revenues and expenses recognition

a) Sales of treated water/ Sales of treated water under pre-sale agreement

Sales of treated water are the invoiced value, excluding value added tax, when goods are delivered and title passed to customers, after deducting discount and allowance.

b) Other revenues and expenses recognition

Other revenues and expenses are recognised on an accrual basis.

2.2 Trade accounts receivable

Trade accounts receivable are stated at the net realisable value.

2.3 Property, plant and equipment and depreciation

Property, plant and equipment are stated at costs less accumulated depreciation. Depreciation for assets not used for production of treated water is calculated by reference to their costs on the straight-line method over the estimate useful lives of 5 years.

Assets for production of treated water consist of construction cost of water treatment plant and system, and related interest expenses and financial cost. The Company has been adopting the unit of throughput method of depreciation to depreciate such assets for production of treated water to be costs of sales of treated water in the earnings statement basing on the following unit of throughput depreciation formula:

Depreciation for the period = Total assets for production of treated water x

Percentage of production of treated water for the period

Percentage of production of

treated water for the period = Current period's actual production of treated water

(Accumulated actual production of treated water up to current period +

Projected production of treated water during the remaining

concession period)

Net assets for production of

treated water = Total assets for production of treated water - Accumulated depreciation

No depreciation is charged for land.

2.4 Capitalisation of interest cost

Interest cost on borrowings for use in construction of assets for production of treated water, is capitalised as part of the cost of assets and will be ceased when the project is completed.

2.5 Foreign currencies

Foreign currency transactions incurred during the year are translated into Baht at the rates ruling on the transaction dates. Monetary assets and liabilities dominated in foreign currency outstanding on the balance sheet date are translated into Baht at the rates ruling on the balance sheet date.

Exchange gains and losses incurred before the commencement of sales of treated water are capitalised as part of assets for production of treated water during construction. Exchange gains and losses incurred after the commencement of sales of treated water are included in determining earnings.

2.6 Financial derivative instruments

The Company occasionally entered into forward exchange contracts to reduce its exposure from exchange rate fluctuation risk. Premiums or discounts (the difference between the spot exchange rate and the forward exchange rate at inception of the contracts) are deferred and amortised over the contract lives using the straight-line method.

The amortisations incurred before the commencement of sales of treated water are capitalised as part of assets for production of treated water during construction. The amortisations incurred after the commencement of sales of treated water are included in determining earnings.

2.7 Employee benefits

During 2005, the Company and its employees have jointly established a provident fund as approved by the Ministry of Finance in accordance with Provident Fund Act B.E. 2530. The fund is monthly contributed to by employees at the rate of 5 percent of their basic salaries and by the Company at the same rate, and will be paid to the employees upon termination in accordance with the rules of the Company's provident fund. The fund is managed by TMB Bank Public Company Limited.

2.8 Earnings per share

Earnings per share as presented in the earnings statement is basic earnings per share, which is determined by dividing the net earnings for the year by the weighted average number of ordinary shares held by outside shareholders in issue during the year.

2.9 Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks and deposits with financial institutions with an original maturity of 3 months or less since the deposit date.

2.10 Use of accounting estimates

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates for certain accounting transactions, affecting amounts reported in the financial statements and notes related thereto. Subsequent actual results may differ from these estimates.

3. CASH AND DEPOSITS AT FINANCIAL INSTITUTIONS

The Company has pledged its right to receive deposits from bank accounts with outstanding balances as at 31 December 2005 of approximately Baht 387.6 million (2004: Baht: 162.8 million) with a group of lenders to secure long-term loans of the Company.

14. DISCOUNT ON SALES OF TREATED WATER/DISCOUNT FROM PURCHASE OF TREATED WATER

- 14.1) The Water Purchase and Sale Agreement between the Company and the Provincial Waterworks Authority stipulates that the Company has to grant a compensation to the Provincial Waterworks Authority for the cost saving as a result of the Company not being required to supply shortfall quantities. The compensation is calculated by multiplying the amount by which the actual quantity of treated water purchased is less than the minimum offtake quantity by the discount rate stipulated in the agreement. Under the agreement, compensation is to be accumulated until the Company has paid all indebtedness due to the lender under the long-term loans agreement, and discharged all obligations thereunder. Thereafter, the Company is to pay the accrued compensation to the Provincial Waterworks Authority by means of a deduction from the treated water charges the Provincial Waterworks Authority has to pay the Company. However, the Company's management believes that the probability that contingent liabilities to be paid to the Provincial Waterworks Authority in the future is rarely to be occurred. The Company does not record such compensation as a discount payment on sales of treated water in the account.
- 14.2) The Operation and Maintenance Agreement between the Company and a related company stipulates that the related company is to grant a compensation to the Company for the cost saving as a result of the related company not being required to supply shortfall quantities. The compensation is calculated by multiplying the amount by which the actual quantity of treated water purchased is less than the minimum offtake quantity by the discount rate stipulated in the agreement. Under the agreement, the compensation is to be accumulated until the Company has paid all indebtedness due to the lender under the long-term loans agreement, and discharged all obligations thereunder. Thereafter, the related company is to pay the accrued compensation to the Company by means of a deduction from the treated water charges the Company has to pay the related company. However, the Company's management believes that the probability that the related company will has to pay this compensation to the Company in the future is rarely to be occurred. The Company does not record such compensation as a discount received from purchase of treated water in the account.

15. LITIGATION

In October 2004, the Provincial Waterworks Authority filed a statement of claim against the Company with the Thai Arbitration Institute requesting the arbitrators to order the Company to pay all expenses in production and distribution of water to the public under the Water Purchase Agreement between the Provincial Waterworks Authority and the Company.

In February 2005, the Company filed a statement of defense and counterclaim against the Provincial Waterworks Authority requesting the arbitrators to order the Provincial Waterworks Authority to pay an annual rental fee for land used for the installation of a water main in a highway area for a Local Distribution Network (amounted of approximately Baht 13 million per annum).

At present, both parties are under negotiation in order to find amicable solution to the matter in dispute. The arbitration proceedings have not yet commenced.

However, no provision for loss as a result of the dispute was set aside in the accounts since the Company's management believes that no material financial damage will result.

16. SUBSEQUENT EVENTS

- 16.1 On 10 January 2006, an extraordinary general meeting of the Company's shareholders passed resolutions in respect of the following:
 - a) Approved a purchase of ordinary shares of Waterflow Company Limited from its existing shareholder equal to 99.99 percent of the registered share capital of that company (formerly these number of shares had been held by related companies). The agreed purchase price was not over Baht 7,000 per share, or total of not more than Baht 700 million. This price is approximated to the value appraised by an independent financial advisor.
 - b) Approved an increase in the Company's registered share capital from Baht 3,000 million to Baht 3,250 million, through the issuance of 2.5 million ordinary shares with a par value of Baht 100 each to its existing shareholders, in proportion to their shareholding, at an offer price of Baht 290 per share, totaling of Baht 725 million.
- 16.2 On 30 December 2005, the Board of Directors' Meeting No. 18/2005 resolved to approve the payment of interim dividends to the Company's shareholders, from its operation for the period as from 1 July 2005 to 31 December 2005. However, given the fact that the Company has not yet known the exact figures, therefore, it is resolved that the Board of Directors shall consider the amount of such interim dividends when the figures can be ascertained as at the closing date of the Company's accounting year on 31 December 2005.

Resulting from such Meeting, on 23 January 2006, the Board of Directors' Meeting No. 1/2006 resolved to approve the payment of interim dividends for the said period at the rate of Baht 3.15 per share, totaling Baht 94.5 million, to the shareholders whose names are listed on the Share Register Book as at 31 December 2005, whereby the Company shall pay such interim dividends on 19 May 2006.

17. FINANCIAL INFORMATION BY SEGMENT

The Company's operations involve principally a single industry segment, the production and sell of treated water, which is not yet in commercial operation and are carried on in the single geographic area of Thailand. As a result, all of the revenues, operating profits (losses) and assets as reflected in these financial statements pertain to the aforementioned industry segment and geographic area.

18. FINANCIAL INSTRUMENTS

18.1 Financial risk management and policies

The Company is exposed to risks from changes in market interest rates and currency exchange rates, and from nonperformance of contractual obligations by counterparties. The Company does not hold or issue derivative instruments for speculative or trading purposes.

18.2 Interest rate risk

The interest rate risk is the risk that future movements in market interest rates will affect the results of the operations and its cash flows. The Company's exposure to interest rate risk relates primarily to its deposits with financial institutions and long-term loans from financial institutions. Since the majority of these financial assets are short-term and interests on its long-term liabilities are charged at rates which closed to market interest rate, the Company does not use derivative financial instruments to hedge such risk. The details of loans are set out in Note 6.

18.3 Fair value

Since the majority of the financial assets are short-term and that the loans carry interest at rates close to market rates, the management believes that the Company's fair value of financial assets and liabilities do not materially differ from their carrying value.

19. PRESENTATION

The presentation of the financial statements has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 14 September 2001, issued under the Accounting Act B.E. 2543.

20. APPROVAL OF FINANCIAL STATEMENTS

These financial statements were authorised for issue by the Board of Directors on 23 February 2006.
